

THE DUX 3003

THE INTERACTION OF SIMPLICITY AND CUSTOMIZABILITY

The DUX 3003 dynamic three-layer base is the perfect combination of comfort and customizability. The 3003 is based on the interaction between the DUX continuous coil spring design and the unique customizability of the Pascal System. Predrilled holes with grommets make headboard attachment easy. The DUX 3003 comes with our Xupport Top Pad. We also offer a choice of bed legs in various styles and finishes. The DUX 3003 is handcrafted from the finest materials.

EXPERIENCE THE DUX DIFFERENCE

SWEDISH STEEL SPRINGS

At the heart of The DUX 3003 is Swedish steel springs – nearly twice as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

EXTRA SUPPORT

The DUX 3003 comes with our Xupport Top Pad. This 2.5 inch replaceable cotton covered latex top pad adds extra softness and cushioning.

SPRING MATTRESS

Spring mattress with latex, cotton filling and three layers of springs on an interior hardwood frame. Available in medium or firm spring densities.
