MASTERING THE ART
OF THE BEDROOM
95 YEARS OF SWEDISH EXCELLENCE

Since 1926, four generations of my family have aspired to produce the most comfortable, technologically advanced beds on the market. Our quest to evolve our products is unceasing.

As a privately-owned company, our only responsibilities are to our customers, to the integrity of our product, and to our commitment to sustainable thought and practices.

Over the last 95 years our beds have been thoroughly vetted and tested — by the scientific community, but more importantly, by four generations of customers worldwide.

The results are clear. We have a technology that works and the history to prove it.

HENRIK LJUNG, CEO DUX OF SWEDEN
Fourth Generation Ljung
THE MOST IMPORTANT ROOM IN THE HOUSE

WELCOME TO THE BEDROOM. OUR COLLECTION OF PRODUCTS ARE SPECIFICALLY DESIGNED TO ENHANCE YOUR SLEEP EXPERIENCE—THE SCANDINAVIAN WAY.
QUALITY OVER CONVENIENCE

OVER 20 MILLION MATTRESSES AND BOX SPRINGS ARE DISPOSED OF EVERY YEAR IN THE U.S.

ENVIRONMENTAL HEALTH IS INTIMATELY CONNECTED TO HUMAN HEALTH. WE HAVE A RESPONSIBILITY TO SEEK PRODUCTS THAT UTILIZE HIGH-QUALITY, SUSTAINABLE MATERIALS AND THAT PRIORITIZE LONGEVITY AND ENVIRONMENTAL WELLNESS.

IT’S TIME TO DEMAND MORE FROM THE COMPANIES WE PATRONIZE. JOIN THE MOVEMENT TO REDUCE OUR ENVIRONMENTAL IMPACT.

THE DUX INNOVATIVE COMPONENT DESIGN is built for longevity; it may just be the last bed you will ever own.

Our design is renewable, adjustable and improvable — it changes as you change.

ADJUST the comfort as your needs change due to pregnancy, injury, back pain, or aging; Refresh the bed as it shows wear; Restore the components due to wear, damage, or spills.

The DUX bed is built to last. Simply put, the longer a bed lasts, the fewer will end up in landfills.

THE MYTH OF THE HARD BED
TRANSCENDING FIRM OR SOFT

A major misconception people have when choosing a mattress is that they confuse the word firm to mean supportive. A bed that is too firm creates an inflexible mattress, forcing the body to conform to it rather than the other way around. This can not only create pressure points that inhibit circulation but also make it virtually impossible to align the spine.

The Informed Sleeper Magazine
duxiana.com/news/the-myth-of-the-hard-bed

THE HARD BED
Lying in a hard bed, the spine is curved.

THE SAGGING BED
Lying in a sagging bed, the spine is curved.

THE DUX® BED:
In a DUX bed, the spine rests in a natural position.

CELEBRATING THE 50TH ANNIVERSARY OF OUR COLLABORATION WITH BRUNO MATHSSON

ICONIC SWEDISH DESIGN

THE FATHER OF SWEDISH MODERN DESIGN

Created by Bruno Mathsson for DUX and revealed at the Stockholm fair in 1969, the Jetson chair is an icon of Swedish design.

With designs characterized by a fusion of traditional Swedish crafts and Modernism, Mathsson was ultimately hailed as one of the pioneers of the style that later came to be known as Swedish Modern.

During the 60s and 70s Mathsson and DUX had a very close, creative partnership resulting in a host of timeless design classics including The Jetson, Karin, and Pernilla chairs—all of which DUX still produces today.
